

Multi-use Playground Canopies at:- HIGHFIELD SOUTH FARNHAM PRIMARY SCHOOL

Part of the South Farnham Educational Trust, a Multi-Academy Trust created in January 2015 and led by South Farnham School.

5 x 6m x 6m Airone Tipo Light Structures

In May 2015, the school contacted Zenith for canopy structures to replace their existing wooden lean-to canopy.

They required a more attractive canopy system that was multi-functional, fully waterproof and covered an area of 6metres x 30metres.

Beneath the canopies and in a play area adjacent to the canopies the school also installed an artificial grass surface.

Having already purchased 1 x 7.5m x 7.5m Airone Max in November 2012 and 1 x 6m x 6m Airone Tipo Light structure in January 2014 at South Farnham School, the lead school of their Educational Trust, Highfield opted for 5 x 6m x 6m Airone Tipo Light structures (6m x 30m) linked together adjacent to the classrooms providing a waterproof covered area for an all year round outdoor play and classroom area, regardless of weather conditions.

AIRONE TIPO LIGHT STRUCTURE

Frame	-	Steel, galvanised and powdercoated in a choice of colours
Fixings	-	Chemical resin anchors
